Strategic update

- Operational improvement
 - Targeted growth initiatives in services
 - Multi-disciplinary projects
 - International niche markets
- Prudent financial strategy

Operational improvement

- Executive Board members have strengthened supervision and support of operating companies management
- Enhanced risk management, mutual learning and cross-border cooperation
- Improved awareness of risks, benefits and quality for better commercial decisions
- Tendering procedure improved with more focus on risk profile, margin and cash
- Introduction of peer review process (tendering) led by Director Operational Audit
- Examples: measure latest expected project result vs. original forecast; % value added revenue

Targeted growth initiatives in services

- Acquisition of facility management specialist Sutton in the UK
- Asset management revenue and margin growth in line with targets
- Set up of two asset management companies to provide long term maintenance and support for infrastructure and buildings (clients: Rijkswaterstaat, VGZ, Friesland Campina and Koninklijke Visio)
- BAM Techniek entered the German market together with BAM Deutschland to service electrical equipment post-completion

Multi-disciplinary projects

- Number of projects involving two or more participating operating companies continues to increase
- Multidisciplinary projects being coordinated by integrated project teams
- Close to the client for small and medium sized projects through local presence
- Some Dutch activities co-locating to "BAM Houses"
- Examples: Borders Railway (Scotland), Rotterdam World Gateway terminal (NL), Al Ain Stadium (UAE)

International niche markets

- Strong growth in revenue and order book at BAM International
- Strengthened management and risk controls
- Leverage core competence of the Group outside our home markets
- Following our global clients in known markets (i.e. APMT, Vopak)
- High standard in safety and working conditions
- Examples: design and construction of a 306-metre wharf extension with joint venture BAM Clough (50th anniversary in Australia)

Prudent financial strategy

- Being financially strong helps BAM qualify for major tenders and compete with international construction firms in the home markets
- Capital ratio improved by 3.7%-points to 19.8% after equity placing
- De-risking of the Dutch pension scheme with amended indexation terms
- Increasingly focused on cash flow through improved procedures, increased awareness and greater accountability
- Disappointing progress on Property divestment program
- Examples: working capital "Dashboards"; firm link to remuneration; improved risk/award awareness at tendering

Sustainability

| | 2013 | 2012 |
|---|------|------|
| Incident Frequency (IF) | 5.8 | 6.9 |
| CO2 emission (in kilotons) | 272 | 249 |
| Construction and office waste (in kilotons) | 200 | 230 |

- Improvement main ratios aligned with strategic targets
- CO2 emission higher due to more energyintensive international infrastructure projects
- BAM will report sustainability performance for 2013 in accordance with GRI 4
- Sustainability report 2012 sector winner Dutch transparency benchmark

| Total sectors | 10,000 | 10,700 | -7% |

(in € million, 2012 restated)

 Construction and M&E order book much lower in NL and somewhat lower in BE. UK and DU improved

- Civil engineering order book down in NL, BE and DU. Increased order book in IE, International and UK
- Order book Property up in BE and UK, down in NL

Outlook

BAM expects, barring a further unforeseen deterioration in market conditions, that 2013 represents the bottom of the market in the Netherlands and that 2014 will be a year of stabilisation for the Group.

Most of BAM's activities are late-cycle and competition remains fierce, although there are some encouraging opportunities, mainly outside the Netherlands.

Against this background, BAM expects that margins at the Construction and M&E services and Civil engineering sectors will remain under pressure in 2014. BAM continues to strengthen the quality of its new order intake.
