This policy is applicable to all Royal BAM Group activities and all its companies, employees and any other representatives (hereafter 'BAM').

- BAM takes all practicable steps to eliminate hazards within the workplace through hazard identification, risk assessment, control and monitoring to ensure ongoing effectiveness.
- BAM promotes and encourages mutual respect for people involved in BAM's work activities and also in the communities in which BAM works.
- BAM accommodates joint venture and client requirements without lowering BAM standards.
- BAM ensures that all incidents are reported and recorded, that causes are identified and risks eliminated with proven effectiveness across all relevant business activities.

BAM's approach provides the framework to set and monitor objectives with key focus on:

Management system

- Continually improve safety management systems to strengthen controls, reduce risk, improve effectiveness and enhance lives.

This policy is achieved by effective operation of the integrated management systems together with the active leadership, participation, professionalism and commitment of all internal stakeholders involved. The management systems aim to meet the requirements of BAM, its clients and other external stakeholders.

The Executive Committee regards the responsibility of management in implementing this policy statement to be fundamental to BAM meeting its standards and commitments.
